FOR IMMEDIATE RELEASE

Hasco Relays & Electronics Celebrates 50 Years of Reliability, Innovation, and Customer Partnership

New Hyde Park, New York – Hasco Relays & Electronics proudly announces its 50th anniversary, marking five decades of delivering reliable relay solutions and electronic components to customers across industrial, security, OEM, and commercial markets.

Founded in 1976, Hasco Relays & Electronics has built a strong reputation for quality, consistency, and long-term customer relationships. What began as a focused relay supplier has grown into a trusted partner offering a broad portfolio of electromechanical relays, reed relays, reed switches, and custom solutions tailored to demanding applications.

“Reaching our 50-year milestone is a significant achievement and a reflection of the trust our customers and partners have placed in Hasco over the years,” said Martin Hauser – Chairman. “Our success has always been driven by a commitment to quality products, competitive pricing, responsive service, and close collaboration with our customers.”

Over the past five decades, Hasco Relays & Electronics has supported customers with:

- Proven, high-quality relay solutions for a wide range of industries including automotive, industrial, safety, and telecommunications among others.
- Flexible manufacturing and sourcing capabilities, including global production support.
- Long-term partnerships across security, industrial, and OEM markets.
- A strong focus on engineering support, product reliability, and continuity of supply.

As part of its 50th anniversary celebration, Hasco will be highlighting this milestone throughout 2026, including special branding, customer outreach, and presence at key industry events.

“While we are proud of our history, we are equally focused on the future,” added Milton Navarro – Director of Technology & Marketing. “As technology and market needs evolve, Hasco remains committed to supporting our customers with reliable solutions and the same values that have guided us for the past 50 years.”
